

Email from your supervisor: Redirections and shifts in scope

Hello again!

Thanks for sending in your dashboard draft. I forwarded it to the Minnesota Department of Transportation team to review. Camila and I just had a call about it, and I wanted to share their feedback with you! She said it was great, but they do have some updates they wanted to ask you to make:

First, Camila shared that they wanted to share this dashboard with some of their team members who aren't familiar with Tableau. She asked if it would be possible to add a dropdown menu to help them view the filters more easily?

They also requested a button on the dashboard that lets users download it directly from the interface.

Lastly, Camila brought up that they really just need data from 2017 onward. She asked if it would be possible to focus the chart on that time period, but view it at a variety of different timescales?

Overall, they were really impressed with the dashboard, and they're excited about getting these updates added!

Once you've incorporated their feedback, I'll reshare the updated dashboard with them for final review.

Thanks!

Jack Park

Team Supervisor
